IMPORTANT LIABILITY PROTECTION FOR ELECTRICAL CONTRACTORS – Available to NYSEC Members Only!

The New York State Association of Electrical Contractors (NYSEC) understands the importance of top quality insurance coverages as a part of your successful contracting business. That's why NYSEC has chosen to provide this endorsed insurance program to its members.

HOW THIS INSURANCE COVERAGE HELPS

There are many reasons why our members should obtain association-sponsored property and casualty insurance, including: a guaranteed group discount, specialty coverages not offered by other insurance companies, and a professional insurance advisor dedicated to the daily overall administration of the NYSEC program.

Most important is the fact that the NYSEC has negotiated on your behalf a discount of up to 45% off standard rates as well as the addition of specialty coverages that pertain to your equipment and installation floaters. Program coverage satisfies BOTH general contractor and labor law requirements.
